ABOUT THE BAND

A Cincinnati-based band built around the music of Rush, with a wide mix of classic rock, from Journey and The Who to Van Halen, Genesis and more.

If you remember dropping the needle on *Moving Pictures* for the first time, you're our people. Modern Day Warrior takes its name from the opening line of Rush's "Tom Sawyer" and celebrates the music of one of rock's most demanding bands, live in clubs and theaters around Cincinnati.

Formed in 2026, the four-piece covers Rush from the hard-rock epics of the '70s through the synth years, along with a wide mix of classic rock, from Journey and The Who to Van Halen, Genesis and more.

The band is available for clubs, theaters, festivals and private events.
